Ground Breaker FAQ

Mack Trucks offers a variety of business solutions to their customers. One of these is the Mack Premium Maintenance Plan which places the care of your truck in the hands of a highly trained Mack-certified technician giving you the peace of mind you deserve and reducing your total cost of ownership. The following are commonly asked questions and answers for customers inquiring about about these preventative maintenance offers;

Q. Am I limited to having my local dealer do the services?

A. No, you can have these services performed at any Mack dealership in the USA or Canada.

Q. Who performs these services on my truck?

A. Mack – Certified Technicians perform all services.

Q. Where can I get my truck serviced?

A. There are over 400 Mack service locations available around the country.

Q. How many service intervals do I get?

A. Depending on your business model Mack recommends service intervals based on whether or not your engine operates as Normal Duty, Heavy Duty or Severe Duty and if 11L, 13L or 16L. For instance normal duty cycle recommends services every 60,000 miles.

Q. How many service intervals do I get with Normal Duty? Recommended services every 60,000 miles.

A. Based on the 300,000 mile Plan 2 you can expect 5 services.

Q. How many service intervals do I get with Heavy or Severe Duty? Recommended services every 45,000 miles.

A. Based on the 250,000 mile Plan 2 you can expect 5 services.

Q. Do I have to plan to be in the shop at the 60,000 mark for normal duty or the 45,000 mark for heavy/severe duty?

A. To accommodate your business needs Mack recommends anytime you can schedule a service roughly 5,000 miles prior to or 5,000 over the recommended service interval.

Q. I do all my own oil changes and I do not need this pm offer.

A. Why not give us a try? There are times your truck may not be able to get back to the shop for service and our dealers can do the work for you.
